Page	Content
3	The illustration on this page depicts a cartoonish nude baby boy crawling. His penis and scrotum are exposed.
4	The illustration on this page depicts a cartoonish nude baby girl sitting in a frontal view. Her labia are exposed.
5	The illustration on this page depicts two cartoonish nude men and a young boy showering. The boy is shown from a rear view with his buttocks exposed. One of the men is shown in a full-frontal view with penis, scrotum, and pubic hair exposed. The man on the right side of the image is shown in a profile view with his penis and scrotum exposed. The image on the bottom-left side of the page depicts a cartoon image of a sperm cell. The image on the bottom right-side the of the page depicts a cross-section of male reproductive system. The penis, scrotum, and prostate are shown. There is a young girl sitting on a bench near some lockers in the background behind the shower. <i>See Figure 1</i>
6	The illustration on this page depicts several cartoonish women in various states of dress. One woman is shown in a frontal view with her breasts and pubic hair exposed. Another woman is sitting on a bench breastfeeding a baby. A portion of her nipple is exposed. The illustration on the bottom-left side of the page depicts a cross-section of the female reproductive system including the vagina, uterus and ovaries. The image on the bottom right side of the page depicts an egg cell. <i>See Figure 2</i>
7	<p>One of the ways for a sperm and an egg to meet is by people having sex. Grown-ups have sex in lots of different ways to show how much they care about each other, even when they are not trying to make a baby.</p> <p>...When two grown-ups have agreed to make a baby by having sex, they kiss and cuddle until the penis becomes hard.</p> <p>The illustration on this page depicts a cartoonish man and woman laying on a bed. The woman is underneath the man. They are kissing.</p> <p>The illustration on the bottom left side of the page depicts a cross-section of an erect penis inside a vagina. The male and female reproductive organs are shown. <i>See Figure 3</i></p>
8	Teeny-tiny sperm travel from the testicles through the penis, and into the vagina.
9	<p>One way that scientists can help people to make babies without having sex is by putting sperm directly into the womb of the person who is going to grow the baby.</p> <p>...First, sperm is collected. This could be from a parent-to-be, or it could be from someone who gives away their sperm to help other people make babies.</p>
10	<p>The illustration on this page depicts a cartoonish woman wearing a gown, laying back in a chair with her legs spread open. Another woman is seated between her legs with her right hand reaching under the other woman's gown. A tray is shown beside them with several medical instruments on it. The image is shown from a birds-eye view.</p> <p>The illustration on the bottom of the page depicts a cross-section of a vagina and uterus with a tube inside the uterus attached to a syringe.</p>
11	Another way that scientists can help people to make babies is to combine the sperm and the egg in a laboratory.
12	The illustration on this page depicts a cartoonish woman laying back on an exam table wearing a gown with her legs in stirrups. Another woman is shown seated between the

	woman's legs with her hand reaching toward the woman's pelvis. A man is standing next to the woman laying on the table. An ultrasound image is shown in the background.
13	A surrogate grows a baby in their womb for someone who isn't able to do it themselves.
14	Sometimes a baby can't be looked after by their birth family, so they are taken care of, or adopted,...
21	The illustrations on this page depict several cartoonish women in various states of dress and positions in labor.
22	The illustration on this page depicts a woman sitting up on a bed with her knees bent. Another woman is holding a baby's head between the woman's knees. Another woman is kneeling behind the woman on the bed.
24	The illustration on the top-right side of the page depicts a baby being pulled out of an incision.
25	The illustration on this page depicts several parents and their children. One of the families depicts two men standing with a young girl.
26	The illustration on this page depicts several parents and their children. One of the families on the bottom left side of the page depicts two women standing together with a baby.
27	Some babies' bodies are a bit like a boy and a bit like a girl. These babies are intersex. Some people grow up feeling that the biological sex they were given at birth is not their true sex, or that they don't belong to either sex. And some help the way they look on the outside match up with the way they feel on the inside.
